# Workshop Overview

ACCELERATOR

## Option 1: Sustainable Transportation and Community Impacts

(workshops on Oct 19, Nov 2, and Nov 16, 2022)

## Option 2: Entrepreneurial Modern Agriculture

(workshops on Jan 11, Jan 25, and Feb 8, 2023)

Over three half-day sessions, attendees will learn entrepreneurship and technology basics and be inspired to pursue careers in the clean tech field.

DAY  
1

### OPPORTUNITIES AND CHALLENGES FOR THE FUTURE OF THE INLAND EMPIRE

Learn about pressing challenges in our community, potential technological solutions, and how students can be a part of the solution through entrepreneurship.

DAY  
2

### DISCOVERING TECHNOLOGICAL SOLUTIONS

This hands on session will be held in the laboratory, exploring technologies in more depth. Students will hear from leading experts from industry and UCR about technologies of the future and help students brainstorm about how to turn their ideas into a business.

DAY  
3

### SUSTAINABLE BUSINESS SOLUTIONS

Students will be challenged to present viable business startup ideas to a panel of industry experts from UCR, followed by discussion, lunch and certificate ceremony.
